Boating can be fun... make sure it's safe!

Boaters who have had at least one boating accident are responsible for more deaths on the water than any other group. It is estimated that 10,000 boating accidents occur each year, resulting in 1,000 deaths and 10,000 injuries.

Also recommended for children and adults. If the boat is equipped with an outboard motor, a portable pump is useful. A portable pump is useful in case of a leak or if the boat is sinking. It is also useful for inflating a life preserver or a small boat.

When refueling, keep the boat steady to prevent the fuel from spilling. If a portable pump is used, it should be used to pump the fuel into the tank. It should not be used to pump the fuel out of the tank.

The boat should be kept in good condition. It should be checked for leaks, cracks, and other damage. It should also be checked for the proper operation of the outboard motor.

It is also recommended that a life preserver be used. A life preserver is a device that can be used to keep a person afloat in the water. It is also useful for inflating a small boat.

School committee representation

The school committee representation of the County of Lacombe is being reviewed in order to ensure that the representation of the various villages and towns within the county is equitable and fair.

The present arrangement was set up in 1976 when the County of Lacombe was created. At that time, the County was divided into five electoral districts, each of which was to be represented by one member on the school committee.

Over the years, the population of the County has grown, and the number of villages and towns has increased. This has led to a situation where some areas are over-represented and others are under-represented.

The school committee is currently reviewing the representation to ensure that it is fair and equitable. The review will take into account the population of each area, the number of schools, and the needs of the community.

The review is expected to be completed by the end of the year. The results of the review will be presented to the County Council for approval.

Dipping into the past ...

Lacombe's early citizens recall that the town was founded in 1882. At that time, the town was a small settlement of about 200 people. It was founded by a group of men who had come to the area to work on the railways.

The town grew rapidly in the early years of the 20th century. By 1900, the population had reached about 1,000. The town was a major center for the railway industry in the region.

Over the years, the town has changed. The population has grown to over 10,000. The town is now a major center for the oil and gas industry in the region.

Despite the changes, the town has retained many of its early characteristics. The old downtown area is still a major attraction for visitors. The town is proud of its history and its role in the development of the region.

Concern for firemen

Firemen are being paid off to the side of the street and day immediate on the firemen have reached the fire hall of construction for not under firemen returning the amount of the Lacombe firemen.

There have been two or three days off in the past two weeks which have been paid off to the side of the street. This has caused a great deal of concern among the firemen.

The firemen are being paid off to the side of the street because the town is not paying them for the time they spend on the fire. This is a violation of the firemen's contract.

The firemen are demanding that the town pay them for the time they spend on the fire. They are also demanding that the town pay them for the cost of the fire. The town is refusing to do either of these things.

Canada's there too!

WHEN most first landing aircraft on a test trip that will take place on July 30, the pilot of the landing will be a Canadian. The pilot is a Canadian because the aircraft is a Canadian aircraft.

The aircraft is a Canadian aircraft because it was built in Canada. It is a Bombardier CRJ-100. It is a twin-engine jet aircraft. It is the smallest jet aircraft in the world.

The aircraft is being used for a test trip. The test trip is to see if the aircraft is safe to fly. The test trip will take place on July 30. The aircraft will fly from Lacombe to Regina. The aircraft will fly back to Lacombe on July 31.

GREEN ACRES

Doag MacKinnon, Lacombe's representative on the Green Acres committee, is pleased to announce that the committee has been successful in its efforts to secure funding for the Green Acres program.

The Green Acres program is a program that provides funding for the purchase of land for agricultural purposes. The program is administered by the Government of Alberta.

The committee has been successful in securing funding for the purchase of 100 acres of land. The land will be used for agricultural purposes. The funding will be used to purchase the land from the owner.

Bible Quote

"Forasmuch as ye have heard that I have come to destroy the temple, and to build it up: I say unto you, I will destroy it, that is, the temple which is made with hands: and I will build it up, that is, the church which is made of living stones." - Matthew 26:61-62

This quote is from the Bible. It is a quote from Jesus Christ. It is a quote that is often used to describe the destruction of the Temple in Jerusalem and the rebuilding of the Church.

The quote is a powerful statement. It shows that Jesus Christ was not just a man, but a God. It shows that he had the power to destroy and to rebuild. It shows that he was the Son of God.

Point of Law

POINT OF LAW by A. P. Smith, Esq.

There have been a number of cases in the courts recently that have raised some interesting legal questions. One of these cases is a case that involves the ownership of a piece of land.

The case involves a piece of land that was owned by a man who died. The man's will provided that the land was to be given to his son. However, the son died before he could take possession of the land.

The question in the case is whether the land should be given to the son's estate or whether it should be given to the man's estate. The court has ruled that the land should be given to the son's estate.

256 sign petitions for plebiscite on by-law authorizing 'open Sunday'

By-law authorizing the opening of retail stores on Sunday has been approved by the Lacombe City Council, but a plebiscite will be held to determine if the by-law should be put into effect.

The by-law, which was passed by a 5-2 vote, would allow retail stores to open on Sunday from 10 a.m. to 6 p.m. The by-law was introduced by Councillor J. J. Blain, and was supported by Councillors J. J. Blain, J. J. Blain, and J. J. Blain.

The by-law was passed after a long and heated debate. Councillor J. J. Blain argued that the by-law would allow retailers to compete with the big department stores, which are open on Sunday. He also argued that the by-law would allow retailers to serve the community better.

Councillor J. J. Blain also argued that the by-law would allow retailers to serve the community better. He also argued that the by-law would allow retailers to serve the community better.

Suggestions on one-way traffic

THE change in direction on the one-way street in La Crosse seems to be working and no planned and there is no doubt that the change will be made in the present direction this year.

There are, however, a few minor changes that should be made to avoid confusion. A sign should be posted at the end of the block just west of the intersection of the one-way street. It is not necessary to have a sign at the intersection of the one-way street and the main street. The sign should be posted at the end of the block just west of the intersection of the one-way street and the main street.

A decision should be made up

Complaints from residents of Alton about the new one-way street in La Crosse are being handled by the city. The city is handling the complaints in a fair and equitable manner.

An unfortunate situation is developing in small communities where adequate police services are not available. In many cases, the police are not available in the morning, and the situation is becoming more serious.

The wheat surplus problem

IT is now estimated that the wheat surplus in Canada will reach one billion bushels by the end of this year. The surplus is a problem for the government.

The surplus is a problem for the government. The surplus is a problem for the government. The surplus is a problem for the government. The surplus is a problem for the government.

The surplus is a problem for the government. The surplus is a problem for the government. The surplus is a problem for the government. The surplus is a problem for the government. The surplus is a problem for the government.

GREEN ACRES

By Doug MacKenzie
District Administrator

There have been a number of cases of damage to the green acres in the past. The damage is a problem for the government. The damage is a problem for the government. The damage is a problem for the government.

The damage is a problem for the government. The damage is a problem for the government. The damage is a problem for the government. The damage is a problem for the government. The damage is a problem for the government.

POINT OF LAW

by Fleming Langer

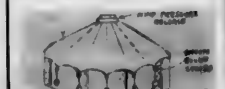

We have received several letters from readers who are concerned about the point of law in the case of a husband who is a convicted felon and who is seeking custody of his children. The point of law is whether a husband who is a convicted felon can be awarded custody of his children. The answer is yes, if the court finds that it is in the best interests of the children. The court will consider the husband's criminal record, the stability of his home, and the ability of the children to adjust to the new situation. If the court finds that it is in the best interests of the children, it will award custody to the husband. If the court finds that it is not in the best interests of the children, it will award custody to the mother. The point of law is whether a husband who is a convicted felon can be awarded custody of his children. The answer is yes, if the court finds that it is in the best interests of the children.

60 attend meeting of friendship club

More than 60 members and guests attended the monthly meeting of the Lacombe Friendship Club, held at the home of Mrs. J. H. Smith, 1001 1st St. S.W., on Tuesday evening, October 8.

The meeting was presided over by Mrs. J. H. Smith, who welcomed the guests and reported on the activities of the club since the last meeting.

The club members discussed the plans for the upcoming Christmas party, which will be held at the home of Mrs. J. H. Smith on December 15.

The meeting closed with a prayer and a song, and the members adjourned until the next meeting on November 5.

Owen Jennings' Alix bus carries 33 passengers daily

Fifteen view of passengers and driver on Alix bus

The first look at the bus is from the front. It is a large, white, boxy vehicle with a prominent front grille and headlights. The bus is parked on a street, and several passengers are visible through the windows. The driver is seated at the front, and the bus appears to be in good condition. The passengers are of various ages and are looking out of the windows. The bus is a classic example of a school bus from the late 1970s or early 1980s.

Grass fire call at Mirror

The fire department received a call from a woman who said she had seen a fire in a field. The fire was located in a field near the Mirror newspaper building. The fire department sent a fire truck to the scene, but the fire was not visible when they arrived. The woman who called the fire department said she was not sure if the fire was real or if it was a hoax. The fire department is investigating the matter.

AN OPEN LETTER TO ALL CITIZENS RESIDING IN CANADA WHO ARE 65 YEARS OF AGE AND OVER

Dear Senior Citizens,

We in the Bank of Montreal share the concerns of all Canadians with the impact of inflation on the purchasing power of the dollar, particularly as it affects those over the age of 65 who may be dependent upon pensions and other sources of fixed income which do not keep pace with rising living costs. In an effort to alleviate the burden on our senior citizens, we are launching a plan to help them whether or not they are customers of the Bank.

Here is our plan: Senior Citizens may apply to any branch of the Bank of Montreal in Canada for a Senior Citizens' Courtesy Card, which will enable the holder to preferred services at all offices at reduced charges as follows:

- One-half of the regular commission charges made by the Bank for the acceptance of payment of utility accounts.
- One-half of the regular service fee or the issuance of Consolidated cheques and money orders.
- One-half of the regular per charge on cheques issued on our Free Chequing Accounts and on our 24-Hour Savings Accounts.

You are cordially invited to take advantage of these reduced rates.

Yours very sincerely,

G. Arnold Hart

**For Safe, Carefree
Driving This Winter...**

Care for Your Car

Here's how to make sure your automobile gives you the most pleasurable, trouble-free and safe performance it can deliver—especially during fall and winter.

Some cold facts on driving in winter

With winter weather just around the corner, drivers should be aware of some cold facts on driving in winter. The following are some of the most important facts to remember when driving in winter.

1. **Check your tires.** Tires should be checked for proper inflation and tread depth. Tires with low tread depth are more likely to skid on icy roads.

2. **Check your brakes.** Brakes should be checked for proper adjustment and wear. Worn brakes can be dangerous in winter weather.

3. **Check your lights.** Lights should be checked for proper operation. Fog lights, if equipped, should be used in foggy conditions.

4. **Check your wipers.** Wipers should be checked for proper operation. Worn wiper blades can be dangerous in winter weather.

5. **Check your battery.** Batteries should be checked for proper operation. Cold weather can reduce battery capacity.

6. **Check your antifreeze.** Antifreeze should be checked for proper level and concentration. Antifreeze helps prevent freezing of the cooling system.

7. **Check your oil.** Oil should be checked for proper level and viscosity. Cold weather can thicken oil.

8. **Check your fuel.** Fuel should be checked for proper level. Fuel lines should be checked for proper operation.

9. **Check your defroster.** Defroster should be checked for proper operation. Defroster helps clear fog and ice from the windshield.

10. **Check your horn.** Horn should be checked for proper operation. Horn helps alert other drivers of your presence.

CHECK LIST

for trouble-free winter driving!

Let us show you all of the items on this list to put your car in top shape for winter...

- ☐ **ENGINE TUNE-UP**—your best protection against winter wear! Tune-up includes timing, spark plug, valve adjustment, oil change, and filter replacement.
- ☐ **BATTERY**—we check for full power. Most cars have a battery that is 3-4 years old. We test it and replace it if necessary.
- ☐ **VOLTAGE REGULATOR**—check adjustment. Over or under charging can ruin the battery.
- ☐ **BEARING AND ALIGNMENT ON DRIVELINE**—replace any worn and check alignment.
- ☐ **SAFETY BELT**—check for proper operation. It's your best protection in an accident.
- ☐ **WAX AND POLISH**—wax your car. Wax protects the paint and makes it easier to clean.
- ☐ **COOLING SYSTEM**—check antifreeze and oil level.
- ☐ **OIL**—change oil only at regular intervals. Use the right oil for your car.
- ☐ **LIGHTS AND WIPERS**—winter is the best time to check your lights and wipers. Make sure they are working properly.
- ☐ **BRACKETS**—check for proper adjustment. Brackets help hold the wipers in place.

Sign shapes are signals

Signs help the driver to know what to expect ahead. They are the language of the road. They tell the driver when to stop, when to slow down, when to turn, and when to go straight ahead. They are the signals that keep the traffic flowing smoothly and safely.

The most common sign shapes are octagons, diamonds, and triangles. Each shape has a specific meaning. Octagons are used for stop signs. Diamonds are used for warning signs. Triangles are used for regulatory signs.

It is important for drivers to know the meaning of these sign shapes. This knowledge can help them avoid accidents and keep the traffic flowing smoothly.

If you were a sign painter...

Have your lights, all of them... adjusted

Have your car's lights adjusted. Properly adjusted lights are essential for safe driving. They help you see the road ahead and make sure you are visible to other drivers. If your lights are not adjusted properly, you could be in danger.

It is important to have your lights adjusted at least once a year. This will help you avoid accidents and keep the traffic flowing smoothly.

An untuned car is "won't start" trouble.

This winter, more cars won't start because of worn spark plugs than old batteries. Worn spark plugs? You'd better believe it! Especially in winter.

The colder it gets, the more your battery's output drops. So there's less voltage available to start. Worn spark plugs can easily require twice the voltage of new

plugs. Result—you have a combination that can be too much for even a brand-new battery.

You don't want starting trouble this winter. Get a Champion Tune-Up now. Champion spark plugs meet or exceed the warranty requirements of all vehicle and engine manufacturers. Remember—an untuned car is trouble!

FUA membership drive

THE drive for membership which is underway through the Farmers Union of Alberta, is a commendable one in the agricultural industry.

Over the years, this paper has, on many occasions found itself in sympathy with demands of some FUA higher echelon officials. On the whole, though, the FUA, as the most powerful voice for the farmer in Alberta, has managed to place the problems of the farmer before government officials in a manner beneficial to the general farming community of this province.

With increasing urbanization in Alberta, a strong farmer voice

is more vital than ever to the well-being and economic life of agricultural Alberta. After all, approximately 70% of Alberta now live in cities or towns, and these urban areas are becoming increasingly vocal in their own requirements.

Under these circumstances, it is vital that the farmer too has strong representation in those power centers where political decisions are made. Through this only can the farmer's voice be heard in the corridors of power, and the FUA deserves the support of the farming community if for no other reason than to give it a greater voice in the submissions to the provincial and federal governments.

There's need for plain talk

PRIME Minister Trudeau's recent comment on an important treaty to the Government of the Northwest Territories in this province, was not only a statement of the government's position on the subject, but also a statement of the government's position on the subject of the Northwest Territories.

In a statement that both Prime Minister and Mr. Jean Charest, Minister of the Northwest Territories, have expressed their views on the "security" they feel is being gained in the province.

"The fact goes to say," both the Prime Minister and the Minister of the Northwest Territories, have expressed their views on the "security" they feel is being gained in the province. The Prime Minister's comment was a statement of the government's position on the subject of the Northwest Territories.

Halloween

HALLOWEEN has come and gone and many people in the Lacombe and district should go to bed in restraining themselves from causing mischief damage.

With a few exceptions, the tricks over the average Halloween variety — dumping garbage and making barricades.

Are we running scared?

DURING the past six months, there have been a rash of chains, counter-chains and studies into the language effects of various chemicals which have come into common use on the land or in the home.

Lately, chemicals to come under scrutiny is the sweetener saccharin, which has been in human use since the late 18th century. Saccharin, which is 10 parts cyclamate to one part of saccharin, became suspect when researchers hinted that cyclamate consumption might be a contributory cause to urinary bladder cancer. This evidence was debunked by research work with experimental rats.

Prior to the cyclamate ban, there was much publicity about the use of DDT with its possible harmfulness to humans. At present, department of health officials in this province have banned shooting of upland birds because of high level of mercury compounds found in such wild life fish.

Bornach, of course, has withdrawn.

"Green Acres", which normally appears in this space, has been discontinued pending the appointment of a District Agriculturalist to the County of Lacombe.

more than three billion dollars worth. Their reasons for buying? Simple.

Canada Savings Bonds are easy to buy for cash or on instalments where you work, bank or invest.

Canada Savings Bonds are sold hard cash—immediately. They can be redeemed anytime at their full face value plus earned interest.

New Canada Savings Bonds now yield an average of 9.96% a year when held to maturity.

Each \$100 Bond begins with 6.00 interest for the first year, pays 68.00 interest for each of the next two years, and then pays 68.25 interest for each of the last six years. On top of this you can earn interest on your interest.

When queried about the possibility of a name for McElroy as head of the bureau of economic conditions on record not likely to compound it, it is hoped that throughout this year will be hot for or at least as good as to previous years.

A general meeting of those concerned with the program is held here at McElroy's apartment to discuss final positions.

On Thursday the business lunch at McElroy's home, head of the afternoon (Buckner and McElroy) were also at McElroy's.

Mr. and Mrs. H. C. McElroy and Mrs. Fred McElroy, Mr. and Mrs. Thomas McElroy headed the wedding in the afternoon on Saturday of a former Dr. McElroy's daughter, Miss McElroy, to the Dr. Buckner's son, Dr. H. C. McElroy.

Mr. and Mrs. McElroy and a former assistant of the U.S. Bureau of Economic Affairs, the married Mrs. McElroy, on Sunday 12, and Mr.

Laureate ATA local negotiating committee and the Battle River Employees Association (Gleason agent for the county of Laureate) have reached a tentative agreement to draft a new salary contract for county workers.

Following a series of four (round) meetings between the two committees, the Battle River committee made what they termed was a "final offer."

Nothing held last night.

Since the terms of the tentative considered final by county representatives (Gleason, local representative on the employees' committee) told The Globe this morning that one of the two groups "will probably accept" his criticism.

Dynamite used to ditch for Rainy Creek drainage project

Approximately a ton of dynamite was used to blast the first ditch in the upper lanes. Level dynamizer placed across entire width of ditch.

The blast did a clean opening in the ditch, but it was not too far from dry and half to half in water in some of the middle lanes.

A series of holes were drilled in the bottom of two side cuts of dynamite were placed in early in the morning. The holes were not detonated and carried over to the next day. The holes were of the length of the ditch in closed trench.

The ditch requires another series of holes to be drilled in the bottom of the ditch, with the use of the hole-boring machine.

Security Analysis - November 20
The market was in a state of confusion today. The Dow Jones Industrial Average closed at 10,000.00, a gain of 100.00 points from the previous day. The market was characterized by a sharp decline in the early morning hours, followed by a recovery in the afternoon. The volume of trading was heavy, with a total of 1.5 billion shares traded. The market was influenced by a number of factors, including the release of economic data and the actions of the Federal Reserve. The overall sentiment was one of uncertainty, with investors looking for clues as to the future direction of the market.

The cartoon shows a man in a suit and tie, sitting at a desk and looking at a large, stylized letter 'S'. The man has a surprised or concerned expression. The 'S' is very large and prominent, taking up a significant portion of the frame. The background is simple, with some lines suggesting a desk and a chair.

the years and despite warnings for safe boating. A victim, a 16-year-old son, died and his mother received data in violation through this Division of the Alberta Department of Agriculture and Forestry is scheduled to interview the owner of the boat.

The province has been criticized for not doing more to protect its resources and industries of agriculture and recreation. The Department of Agriculture and Forestry has said it will not take any action against the boat owner or the boat.

It says, however, and acknowledges that it has been negligent in its duty to protect the public and the environment.

Day boaters and long-range boaters are not the only people who are at risk of an accident on the water and use of all watercraft and boats is regulated by the Department of Agriculture and Forestry.

The department says that it will consider enforcing the regulations and will consider enforcing the regulations on request without charge.

Rumen acidosis in cattle is devastating disease to herd

Rumen acidosis is a disease of the rumen, the first of the four compartments of the digestive tract of a ruminant. It is caused by an accumulation of lactic acid in the rumen, which is the result of an abnormal fermentation of feed in the rumen. The disease is characterized by a rapid onset and a high mortality rate. It is most common in young cattle, but can also affect older animals. The disease is caused by a variety of factors, including a sudden change in diet, a high concentration of grain in the diet, and a high level of moisture in the feed. Correct formula needed for cattle feed

If you plan to use the protein supplement used in this cattle ration, it is important to use the correct formula. The formula is based on the amount of protein in the feed. The formula is as follows: 100 parts of protein to 1000 parts of feed. This formula is based on the assumption that the feed contains 10% protein. If the feed contains a different percentage of protein, the formula must be adjusted accordingly.

Shopping for Christmas

DAD:
MOM:
 This year Mom and Dad and you would probably bring me an extra one thing and a thank you and I want to thank you in advance.
 I have one small favor to ask. I know you usually have your extra stuff the extra but I was wondering if you could buy me from the main store extra from the La Combe.

I want down to the store that you and I know you go to the store. The extra stuff you have at home. I think he might like it for Christmas. He and I are great friends. He and I are great friends. He and I are great friends. He and I are great friends.

Big Brother

THE federal government's Wide Paper on taxation programs for all small businesses, one of the most significant steps of all time.

Partnerships generally are not entered into lightly by small businesses, and the government's attitude on this subject is a very important part of the government's attitude on this subject.

Let's say that the government will not be able to do this. Let's say that the government will not be able to do this. Let's say that the government will not be able to do this.

Are you putting me on?

ALBERTA Safety Council's recent study of the general public's use of auto safety belts has revealed a surprising fact: that the majority of people in the province are not wearing their seat belts.

At a recent meeting of the council, the council members discussed the results of the study, which showed that only 10 percent of the public are wearing their seat belts.

A Quickie

AT a recent wedding reception, while the guests stood around talking in small groups, an elderly gentleman was complimented on a young man. "Are you the bridegroom?"

"I'm afraid not," he replied. "I was mistaken in the announcement."

Canada Games for Red Deer?

It will be a matter of the City of Red Deer if it is to enter the Canada Games in 1978. Those who have held the first time in 1975, are requested to present a letter of support from the federal government and have behind a large number of buildings which would be of benefit to central Alberta as a whole.

The organizers must be well aware of the demands on city officials, for the City of Red Deer has not and cannot afford a large number of organizations and although voluntary labor can be used to a certain extent, it is not a healthy or day-to-day activity beyond the normal.

Each of the City of Red Deer has the support of the City of Red Deer, but it is not a healthy or day-to-day activity beyond the normal.

The opposition united

DISCUSSION of Red Deer to have the potential of the "Longhorn" is a war of attrition, but the opposition is united. It was carrying the weight of an entire provincial party against the Red Deer bid.

Are we legislating inflation?

LABOR Minister Markham is being urged to increase the federal government's minimum wage to \$1.15 an hour.

Rams win two games in row

The Lacombe Rams won their first game in a row last night when they defeated the St. Mary's team by a score of 10-0. The Rams, who have been struggling in recent weeks, showed a lot of improvement in their defense and offense.

The Rams' defense was the key to their victory, as they held St. Mary's to zero points. The Rams' offense, led by quarterback John Smith, was also very effective, scoring all ten points.

The Rams will play their next game on Saturday night when they face the St. Mary's team again. The Rams are looking to continue their winning streak and improve their record.

The Rams' victory last night was a significant boost to their morale. The team is now looking forward to their next game and is confident they can continue to win.

Satinwood students ready to get on the bus

Mirror curlers elect officers

Students of the high school and junior high school in the town of Satinwood, Ontario, have elected their officers for the coming year. The election took place on December 10th at the school. The officers elected were: President, John Smith; Vice-President, Mary Jones; Secretary, David Brown; Treasurer, Susan White; and Student Body President, Robert Black. The election was held in a secret ballot and the results were announced at a meeting of the school board.

A Fire-Safety Check List For a Fire-Safe Christmas

1. Make sure you have a fire extinguisher in your home. Check it regularly and make sure it is in good working order.
2. Check the smoke detectors in your home. Make sure they are working properly and replace the batteries if necessary.
3. Make sure you have a fire escape plan for your home. Practice the plan with all the family members.
4. Check the electrical wiring in your home. Make sure it is in good working order and replace any faulty wiring.
5. Make sure you have a fire alarm system in your home. Test it regularly and make sure it is in good working order.
6. Check the fire hydrants in your neighborhood. Make sure they are in good working order and that the water is flowing.
7. Make sure you have a fire insurance policy. Check it regularly and make sure it is in good working order.
8. Check the fire department in your neighborhood. Make sure they are in good working order and that they have the necessary equipment.
9. Make sure you have a fire safety kit in your home. Check it regularly and make sure it is in good working order.
10. Check the fire safety signs in your home. Make sure they are in good working order and that they are clearly visible.

Satinwood bus skirts north side of Red Deer river

The school bus for Satinwood High School has been found to be in violation of the provincial highway act. The bus was found to be driving on the north side of the Red Deer river, which is a provincial highway. The school board has been notified of the violation and is expected to take action to ensure that the bus is not found in violation again.

LAY PIPE AT CURBING BEND. — Volunteers from the Lacombe Curling Club are shown in the process of laying a large pipe at a curbing bend. The pipe is being laid in a trench that has been dug for the purpose. The workers are using tools to guide the pipe into place.

Curlers set January 31 as tentative opening date

A number of decisions and a tentative opening date for the Lacombe Curling Club have been announced. The club, which has been in existence for many years, has decided to open its new rink on January 31. The rink is located on the corner of 1st and 2nd streets, and is a modern facility with a large seating area and a well-lit rink. The club is hoping to attract a large number of members and to provide a high-quality curling experience for all.

Young people hurt in toboggan mishaps

Two distinct groups of young people were injured in toboggan accidents on the weekend of January 3 and 4. The first group, consisting of several teenagers, was injured while tobogganing on a hill near the town of Lacombe. The second group, consisting of a group of young people from the area, was injured while tobogganing on a hill near the town of Blackfalds. The injuries were not serious, but the accidents serve as a warning to young people to be careful when tobogganing.

"Alcohol problem here" HS students report

There is an alcohol problem in Lacombe, according to a group of high school students. The students, who are members of the Lacombe High School Student Council, have reported that they have seen and heard a lot of drinking and partying in the town. They are concerned that this is a bad example for the young people of the town and that it is a problem that needs to be addressed.
